During dis/re-assembly of a firearm (particularly older/used guns) parts can be damaged and/or
_____ broken at no fault of the technician performing the work.

During regular firearm use, parts can wear and may require replacement for safety/function reasons.
_____ Some parts are not meant to be re-installed as per manufacturer's specifications and must be replaced.

Labor beyond the standard dis/re-assembly may be extra and you will be notified if any such
_____ work is required.

Parts needing to be replaced are the customer's financial responsibility. If parts are ordered additional
_____ time is required for shipping.

Any parts requiring factory installation (ie. some safties), additional time may be required for the
_____ manufacturer to perform the work and for shipping.

I UNDERSTAND THESE STIPULATIONS AND CONSENT TO HAVING WHISKEY TANGO FIREARMS LLC perform work on my firearm.
